ACKNOWLEDGMENTS—The Bureau of the Census and the Law Enforcement Assistance Administration are indebted to the many Federal, State, and local government officials who provided the information and rendered other valuable assistance for the preparation of this jointly prepared report.

In the Law Enforcement Assistance Administration, general supervision was provided by **Charles R. Kindermann,** with project direction by **Sue A. Lindgren** and editorial supervision by **Marilyn Marbrook,** all of the Statistics Division. In the Bureau of the Census, Governments Division, general supervision was provided by **Alan R. Jones** and **Diana M. Cull.** Significant contributions were made by **Bernice J. Brigham, Dennis E. Gosier, Purnell E. Johnson,** and **Edward C. Malloy Jr.** Tables were prepared by **Ora E. Dorsey** and **Joan B. Taylor.** Preparation of publication copy was supervised by **Helen D. Files.**

We have provided a User Evaluation Questionnaire at the end of this publication. It will assist us in improving future reports if you will complete and return it at your earliest convenience. The questionnaire is a self-mailing form and requires no postage.

TABLE FINDING GUIDE

Subjects by Type of Government and Table Designation

This guide lists all subjects in this report, but does not indicate all the detail shown in some tables, e.g., percent distributions and full-time employment. Expenditure data are shown for fiscal years 1971, 1972, 1973, 1974, and 1975, and employment data are shown for the months of October 1971, 1972, 1973, 1974, and 1975. Asterisks (*) appear with some table designations to indicate that only summary data are shown. These tables show total data for combined State or local governments only; they do not show data for individual governments.

INTRODUCTION

This publication is the third in a series of reports that presents statistics on trends in public expenditure and employment for criminal justice activities in the United States. These activities are police protection, judicial activities, legal services and prosecution, public defense, corrections, and a residual category called "other criminal justice." In the first and second reports, expenditure data were presented for fiscal years 1971 through 1973 and 1971 through 1974 respectively. Employment data were presented for the month of October in each of those years. This report presents expenditure data for fiscal years 1971 through 1975 and employment data for October of each year.

These data are extracted from a series of annual reports entitled Expenditure and Employment Data for the Criminal Justice System. The annual volumes present the data in much greater detail for the 50 States, the largest Standard Metropolitan Statistical Areas (SMSA's with a population of 2,000,000 or more), the largest counties (population of 100,000 or more), and the largest cities (population of 50,000 or more). Examples of detailed data contained in the annual volume are character and object expenditure categories, capital outlay and intergovernmental expenditure subcategories, total employment and full-time employment. Expenditure and employment data are also shown for particular judicial activities by type of court, for miscellaneous judicial activities, and for corrections activities including types of institutions, probation/parole/pardon, administration and miscellaneous. (See Availability of Data section for information on how to obtain copies of these reports.)

Although the annual series began with fiscal year 1967, caution should be exercised in comparing data in the first four volumes (FY 1967 through FY 1970) with data in the subsequent five volumes (FY 1971 through FY 1975). Beginning with FY 1971, the survey sample of governmental units was increased by a third, and the number of units for which data are compiled in the field by specially trained agents was more than doubled. Data collection further benefited from a growing familiarity with the criminal justice systems in the various States and with individual governmental units within the States. Data from the FY 1971 through FY 1975 survey years are therefore essentially comparable because they were collected in the same way each year from the same sample of governments and were edited and processed in a uniform fashion. (See the section on Survey Methodology for more detail.)

As defined for this report, total expenditure is comprised of direct and intergovernmental expenditure of a government or level of government for criminal justice activities. In most expenditure tables, certain totals must be adjusted to exclude duplicative intergovernmental expenditure amounts. For example, money paid by a State government to a county government within that State is reported by the State government as an intergovernmental expenditure and by the county government as a direct expenditure when the money is spent. Therefore, in order to arrive at a combined State-local government total that does not duplicate these amounts, intergovernmental expenditure amounts are deducted from the State-local total. The same is true of intergovernmental payments between counties and municipalities within the same State.

Changes in the level of employment are expressed in this report in terms of full-time equivalent employment—a statistical measure that represents the total number of employees, discounted by applying average rates of full-time earnings. It is calculated by dividing the total payroll (full-time plus part-time) by the fulltime payroll and multiplying the resultant quotient by the number of full-time employees.

It is also important to note that in this report the judicial, legal services and prosecution, and public defense categories include expenditure and employment data for both criminal and civil activities because available source documents for many governments do not segregate these activities for courts or agencies that handle both. Nor are the State and local government officials who provide the survey data able to make this break reliably and consistently. Therefore, in the absence of a consistent and reliable basis for proration, and to preserve uniformity in the collection and presentation of data, both criminal and civil activities are included for these categories.

Organization of this report

This report was designed as a ready reference for summary data on public expenditure and employment for criminal justice activities in the United States over the 5-year period 1971-75. Federal, State, and local government trends are discussed in this Introduction with accompanying tables and charts, followed by a brief description of survey methodology, data sources, and limitations.

Following the introductory text are the main tables, which include a 5-year summary of "variable pass-through" data with an accompanying explanation of this unique concept (table 1) and 28 tables presenting Federal, State, and local government criminal justice expenditure and employment data with corresponding percentage changes for the 5-year period (tables 2-29).

Immediately preceding this Introduction, a table-finding guide has been provided for quick reference to the subjects covered. The guide cross-references all subjects contained in this report pertaining to criminal justice activities by all governments combined and each level of government—Federal, State, and local. Local governments are further broken down into counties and municipalities.

Definitions for concepts, categories, and terms used in this report are contained in appendix 1. Appendix 2 exhibits the mail questionnaires used in the 1975 annual survey, followed by a user evaluation questionnaire soliciting comments from readers.

SUMMARY OF MAJOR FINDINGS

Distribution of responsibility by level of government

In each of the 5 fiscal years covered in this report, local governments spent more for criminal justice activities than the Federal and State governments combined. Table A shows that in FY 1975 for example, local governments accounted for 61 per-

cent of all direct criminal justice expenditure, whereas State governments contributed 27 percent and the Federal government 13 percent. The distribution among the three levels of government in the preceding 4 years was similar.

When each criminal justice activity is examined separately, however, the proportion accounted for by the different levels of government varied throughout the criminal justice system. Three of the activities—police protection, judicial, and legal services and prosecution—were supported mainly by local governments in all 5 years; the Federal government was the principal supporter of public defense in the first 3 years (1971-1973), however, local government expenditures were highest in this sector in 1974 and 1975; and State governments were the largest supporters of corrections. Table A shows the percent distribution by activity for each of the 5 fiscal years.

Relationships similar to those found for expenditure from FY 1971 to FY 1975 also applied to employment. Table B shows that roughly two-thirds of the total full-time equivalent criminal justice employees of all governments were employed by local governments in 1971 through 1975. However, the distribution of employees at each level of government varied for each criminal justice activity. In general, the proportion of workers employed by the three levels of government in each sector generally approximated the proportion of expenditures made in the sector. An exception to this pattern is seen in the public defense sector, where the Federal government accounted for over 30 percent of the total expenditures, but less than 3 percent of the employees in each of the 5 years. This is because the Federal government makes more extensive use of court-appointed counsel systems (whereby fees are paid to private counsel to defend indigent clients accused of crimes) than do State and local governments, which more frequently hire employees directly to provide public defense services. As with expenditure, the percent distribution of employment over the 5 years has remained generally stable.

The preceding discussion has dealt with local government as an entity. Analyzing local criminal justice expenditure in total, however, tends to obscure significant differences between the county and municipal levels of government. In each of the 5 years, municipal governments outspent county governments for criminal justice by almost two to one, but the difference can be attributed almost exclusively to the police sector, where the municipal governments outspent the county governments by better than four to one. In FY 1975, for example, municipal governments spent $5,574 million on police protection (or 83 percent of all their criminal justice expenditure); this was 43 percent more than county governments spent on all criminal justice activities combined. On a sector-by-sector basis, however, county governments spent substantially more than municipal governments for judicial activities, legal services and prosecution, public defense, and corrections. No one sector dominates county criminal justice expenditure as police protection does municipal expenditure. At both the county and municipal levels, employment and payroll were distributed throughout the various sectors in nearly the same percentages as expenditures in all 5 years.

Table A. **Percent distribution of total direct expenditure for the criminal justice system by activity and level of government: FY 1971 to 1975**

Level of government and fiscal year	Total criminal justice	Police protection	Judicial	Legal services	Public defense	Corrections	Other criminal justice
Total	100.0	100.0	100.0	100.0	100.0	100.0	100.0

National trends (tables 2 and 3)

As illustrated in figure 1, total expenditure for criminal justice purposes at all levels of government rose steadily from 1971 to 1975. These expenditures were $11 billion in FY 1971 and $17 billion in FY 1975; an increase of 55 percent. Over the same period, full-time equivalent employment also increased steadily, but at a considerably slower pace, from 862,000 to 1,051,000, a 22 percent increase (see figure 2). The greater rate of increase in expenditure is attributable to several factors, including increased salaries and increased cost of nonsalary items such as supplies and equipment. To illustrate, the monthly payroll for all criminal justice employees jumped from $715 million in October 1971 to $1,159 million in October 1975, a 62 percent increase in payroll compared to the increase of only 22 percent in employees noted above (see figure 3). The average pay for an individual "full-time equivalent" criminal justice employee rose almost a third, from $830 a month in October 1971 to $1,103 a month in October 1975.

Expenditure increases occurred in all six of the criminal justice sectors but at considerably different rates, ranging from a 52 percent increase in judicial expenditure to a 308 percent increase in "other criminal justice" expenditure (see figure 4). The sharp increase in "other criminal justice" expenditure reflects the growth of criminal justice grant programs administered by the Law Enforcement Assistance Administration (LEAA) at the Federal level and criminal justice planning agencies at the State and local levels. This increase, however, is overstated to a certain extent by two factors. First, some of the grant funds included in the "other criminal justice" category were actually expended in other sectors, such as police or corrections, but because of the variant bookkeeping methods employed by many local governments, the amounts could not easily be broken out of general criminal justice grant fund accounts and assigned to specific criminal justice activities. Second, "other criminal justice" total direct expenditure for all 5 years accounted for only $1,058 million, or 2 percent of the total direct expenditure for all criminal justice activities.

Figure 1. Trends in total criminal justice expenditure by level of government, fiscal years 1971–1975

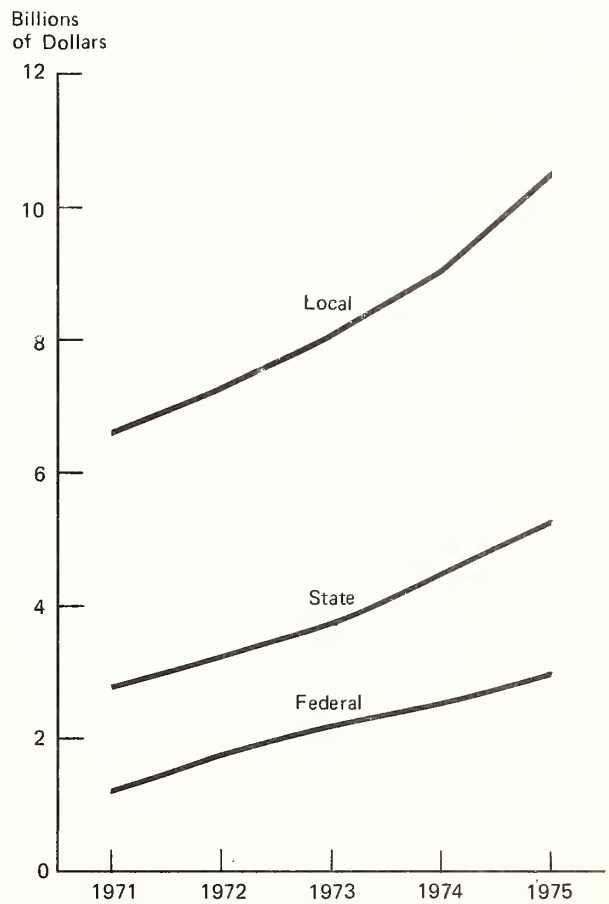

Figure 2. Trends in criminal justice full-time equivalent employment by level of government, October 1971—October 1975

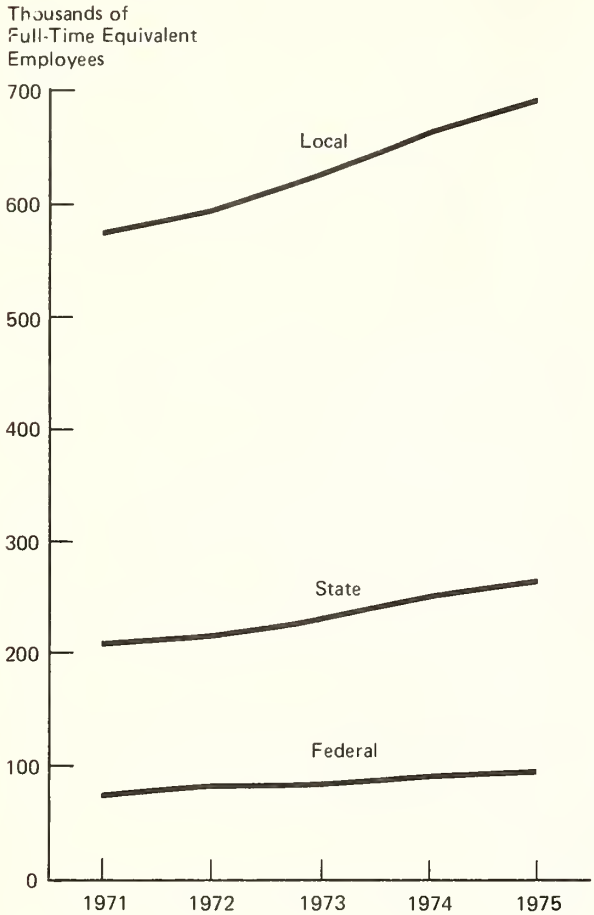

Figure 3. Trends in criminal justice payroll by level of government, October 1971—October 1975

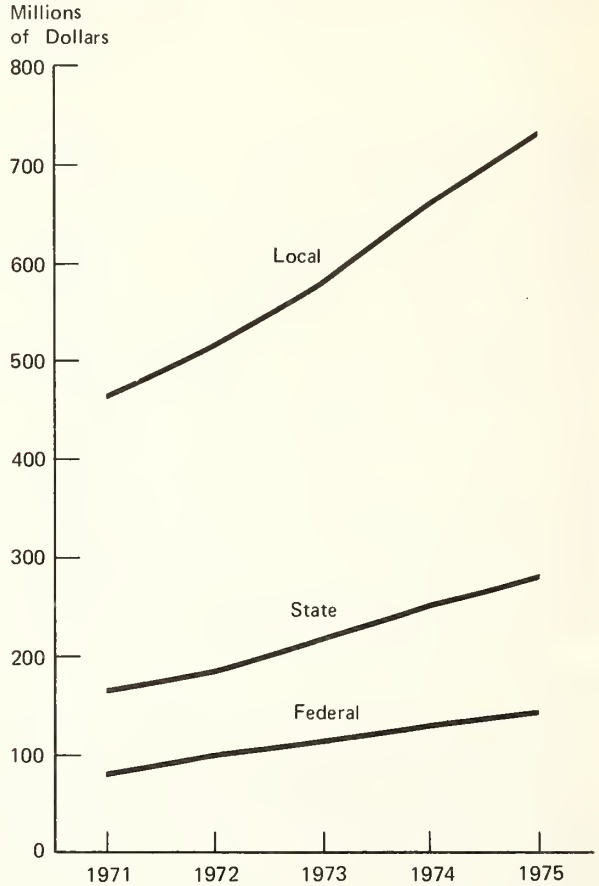

Figure 4. Total criminal justice system expenditure by activity for all levels of government, FY 1971 and FY 1975

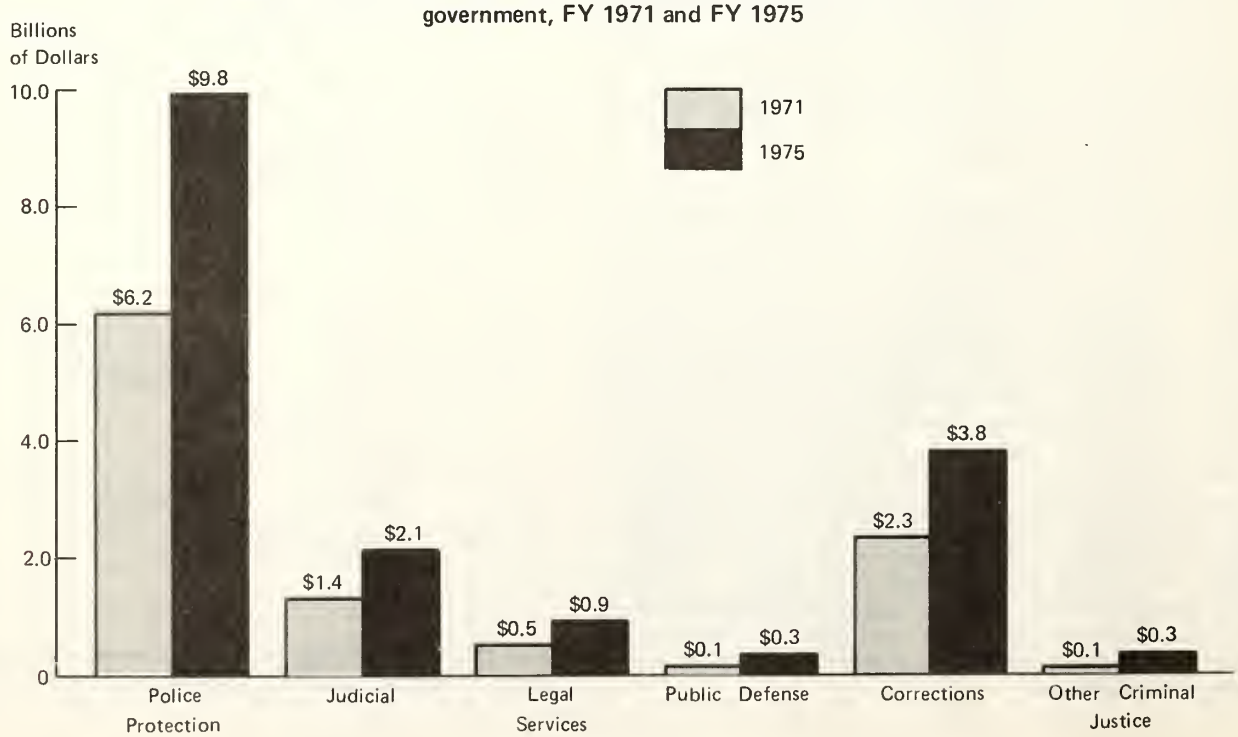

The second largest increase, 118 percent, occurred in public defense expenditure, reflecting State and local government response to recent judicial rulings concerning the right of indigent persons to counsel. In some States, counsel was also being provided to convicted persons still in need of legal services. Employment increases paralleled expenditure increases: A 153 percent increase in the "other criminal justice" sector and an 81 percent increase in the public defense sector (see figure 5).

Although "other criminal justice" and public defense were the fastest growing sectors over the 5 years, in no 1 year did the two sectors together account for more than 5 percent of total expenditure. In contrast, police protection and corrections together accounted for approximately 80 percent of total criminal justice expenditure in each of the 5 years and showed the greatest increase in absolute dollars expended. Police protection direct expenditure rose $3,621 million (59 percent) from FY 1971 to FY 1975, correctional expenditure rose $1,552 million (68 percent). These sectors also showed the greatest gains in full-time equivalent employment from October 1971 to October 1975: 96,451 in police protection (18 percent) and 44,559 in corrections (25 percent).

Payroll figures over the 5 years indicate that employees in the public defense sector drew the highest average monthly salaries, followed closely by legal services and prosecution personnel and "other criminal justice" employees (see table C). Police salaries were fourth highest among the six criminal justice sectors, judicial salaries fifth, and corrections salaries sixth and lowest. The high average salaries for public defense and legal services personnel can be accounted for by the fact that most of the employees in these sectors are attorneys with comparatively few and lower-paid support personnel. In contrast, the judicial sector includes a large number of support personnel whose rate of pay offsets the higher salaries of judges. Although police salaries ranked fourth each year, this sector made the greatest gain in average monthly pay over the 5 years—35 percent.

Figure 5. Total criminal justice system full-time equivalent employment by activity for all levels of government, October 1971 and October 1975

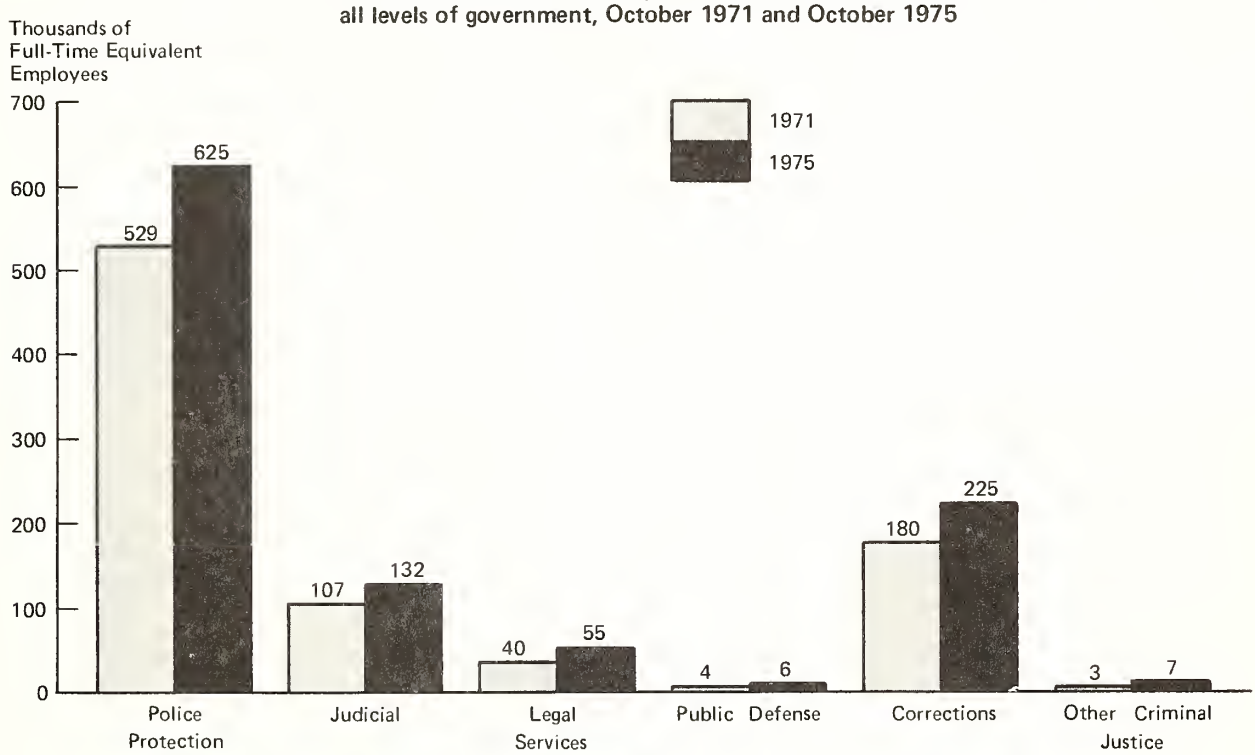

Table C. Average monthly salaries for all full-time equivalent employees in the criminal justice system, by activity: October 1971, 1972, 1973, 1974, and 1975

Item	Total	Police protection	Judicial	Legal services	Public defense	Corrections	Other criminal justice

Percent change, 1971 to 1975	33.0	34.7	29.1	28.1	31.8	31.7	21.2

Federal trends (tables 4 and 5)

Some of the changes in the data discussed below result in part from changes in classification or the addition or deletion of certain Federal activities as more was learned from year-to-year about the role of particular agencies. These factors are mentioned where they are applicable.

Data in the "other criminal justice" sector for fiscal years 1971, 1972, 1973, and 1974 were revised to reflect adjustments in expenditure amounts reported by the Law Enforcement Assistance Administration. Total Federal expenditures were adjusted accordingly.

Total Federal criminal justice expenditure increased by $1,570 million, or 108 percent, from FY 1971 to FY 1975. However, a substantial portion of the increase reflected the accelerating flow of intergovernmental funds. Intergovernmental expenditure rose from $233 million in FY 1971 to $831 million in FY 1975, a 256 percent increase. Virtually all of the increase is attributable to the grant program of the Law Enforcement Assistance Administration, which distributed $222 million to State and local governments in FY 1971 and $798 million in FY 1975.

Excluding intergovernmental expenditure and considering only direct expenditure (i.e., cost of salaries, materials, supplies, contractual services, and capital outlay), the increase in Federal expenditure was $973 million, or 80 percent. Among the six criminal justice sectors, the greatest proportionate increase in Federal direct expenditure, 387 percent, occurred in "other criminal justice." The increase in this sector reflects a growth in the Washington and regional staff and operations of LEAA, a revision in the classification of expenditure for the U.S. Marshals Service (assigned entirely to the judicial category in FY 1971), and the addition of agencies not canvassed in FY 1971, including the Center for Studies of Crime and Delinquency and the Division of Law Enforcement Services in the Bureau of Indian Affairs.

Although the "other criminal justice" sector, primarily LEAA, became more significant in terms of overall expenditure each year, figure 6 shows that still the largest share (nearly two-thirds) of Federal criminal justice total expenditure was for police protection activities, including those agencies that enforce Federal law and those that provide security and police services to nondefense Federal property and buildings. Over the 5-year period, the police protection category experienced the greatest increase in absolute dollars expended, rising from $805 million in FY 1971 to $1,464 million in FY 1975—an increase of $660 million.

Total Federal expenditure for corrections also increased steadily over the 5-year period, from $121 million in FY 1971 to $243 million in FY 1975. Although the remaining sectors—judicial, legal services and prosecution, and public defense—experienced some fluctuations in expenditures, all three realized net increases from 1971 to 1975.

Following the overall national trend, the 80 percent increase in Federal direct expenditure over the 5 years was much greater than the percent increase in Federal criminal justice employment. In October 1971 there were 77,523 Federal full-time equivalent employees compared with 96,136 in October 1975, an increase of 24 percent. Although the number of public defense employees showed the greatest proportionate gain, 256 percent, the absolute increase in number of employees was only 133 employees. The sector showing the greatest absolute increase in employees was police protection (12,668 employees, or 22 percent).

In the same 5-year period, the Federal criminal justice monthly payroll increased 74 percent, from $84 million to $145 million, and the average monthly pay for a Federal criminal justice full-time employee rose 40 percent, from $1,077 a month to $1,509 per month. On a sector-by-sector basis, the highest paid Federal criminal justice employees in October 1975 were in the judicial sector, averaging $1,802 a month, followed by public defense, legal services, police protection, corrections, and "other criminal justice," in that order (see table D).

Figure 6. Federal Government criminal justice system total expenditure (direct and intergovernmental) by activity, FY 1971 and FY 1975

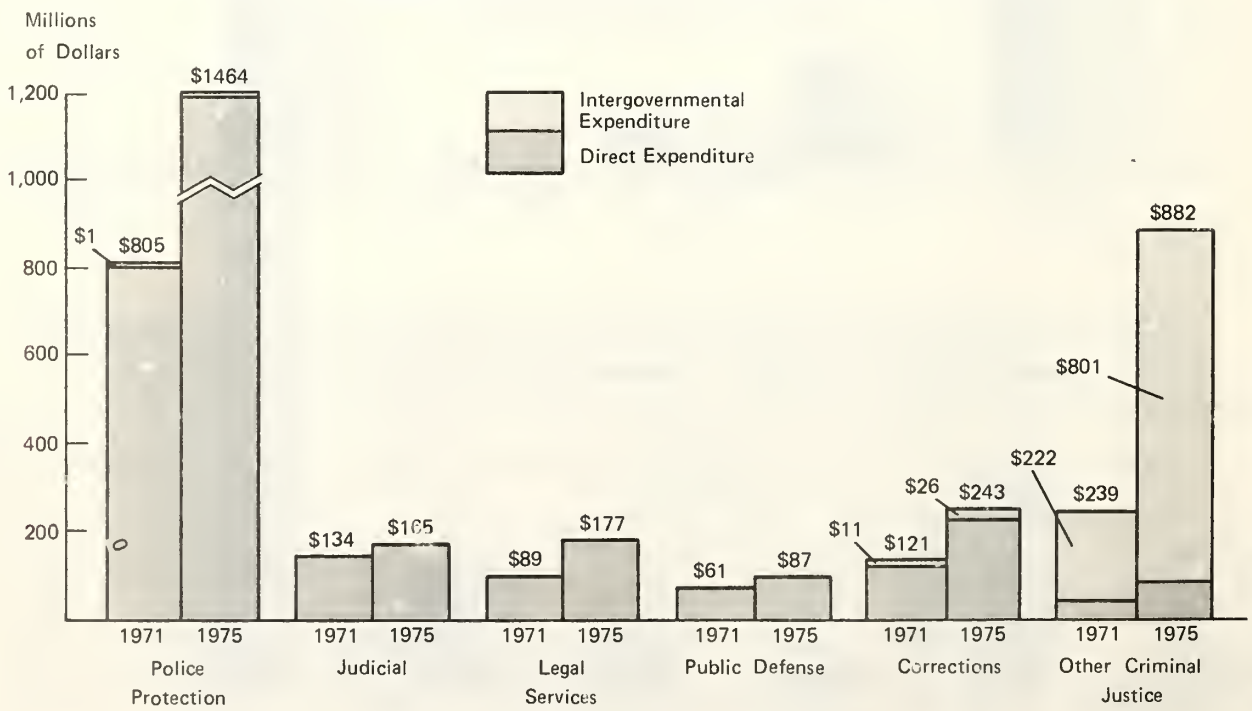

Table D. **Average monthly salaries for Federal full-time equivalent employees in the criminal justice system, by activity: October 1971, 1972, 1973, 1974, and 1975**

Item	Total	Police protection	Judicial	Legal services	Public defense	Corrections	Other criminal justice
October 1975	$1,509	$1,478	$1,802	$1,587	$1,703	$1,466	$1,451
October 1974	1,395	1,382	1,562	1,523	1,442	1,293	1,331
October 1973	1,303	1,287	1,485	1,411	1,404	1,214	1,295
October 1972	1,178	1,153	1,284	1,267	*1,136	1,185	1,203
October 1971	1,077	1,048	1,179	1,214	1,318	1,077	1,152
Percent change, 1971 to 1975	40.1	41.0	52.8	30.7	29.2	36.1	26.0

*The Federal Public Defender Organizations program was begun in May 1971. Initial hiring, reflected in the October 1971 figure, concentrated on attorneys, hence the high average monthly salary. The October 1972 figure reflects the subsequent addition of lesser-paid clerical and support personnel, which lowered the average monthly salary.

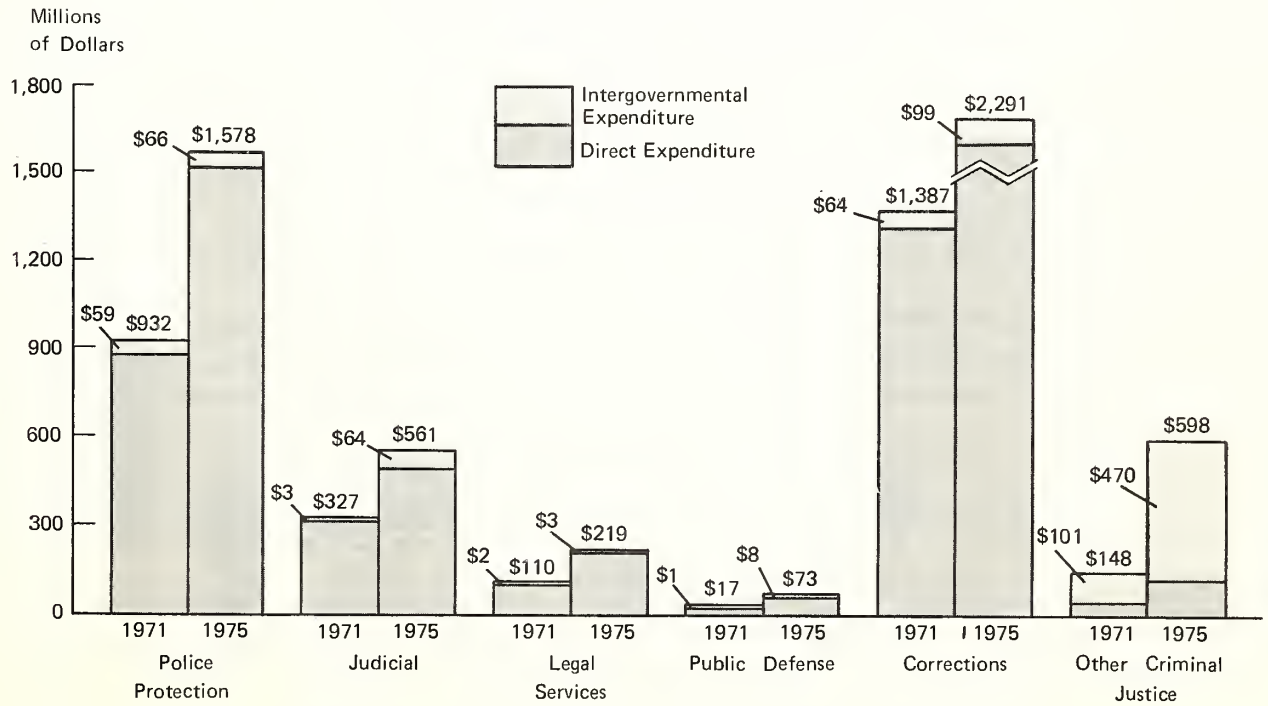
State trends (tables 8 and 9 and 16-29)

Total State criminal justice expenditure increased 82 percent, from $2,921 million in FY 1971 to $5,321 million in FY 1975. As with the Federal government, however, a significant part of the increase derived from the rapid growth in intergovernmental payments from State to local governments, primarily the LEAA block grant funds channeled through the State planning agencies. In FY 1971, States distributed $239 million to local governments, compared with $709 million in FY 1975, a 196 percent increase, 79 percent of which was reflected in the "other criminal justice" sector. This sector also showed a large increase in full-time equivalent employees (1,906 employees, or 130 percent) as State planning agencies enlarged their staffs to handle the expanding programs. Excluding intergovernmental expenditure, the State increase in direct expenditure was 72 percent, from $2,681 million in FY 1971 to $4,612 million in FY 1975.

At the State level, the greatest proportionate increases occurred in the public defense sector, where States have been assuming a greater share of the responsibility for providing personnel and funds to defend the poor. States increased their direct expenditure for public defense by $49 million (297 percent) from FY 1971 to FY 1975 and increased their intergovernmental assistance to local governments for public defense by $7 million (887 percent). This sector also showed the greatest proportionate increase in full-time equivalent employment, 1,562 employees (159 percent).

As seen in figure 7, the largest portion of State expenditure in all years was for corrections, which included the operation of the State prison system and, in many States, the operation of the probation and parole systems as well. In FY 1975, State direct expenditure for corrections was $2,193 million, or 48 percent of the State total for criminal justice activities; and

Figure 7. State government criminal justice system total expenditure (direct and intergovernmental) by activity, FY 1971 and FY 1975



State payments to local governments for correctional purposes amounted to another $99 million. This sector had the largest increase in absolute direct dollars expended—$870 million over the 5-year period from FY 1971 to FY 1975.

Police protection activities accounted for the second largest portion of State expenditures in each of the five years. Expenditure in this sector increased by $639 million (73 percent) for the 5-year period. This sector, which showed the largest increase in absolute dollars for the first 3 years, continued to show the greatest absolute increase in full-time equivalent employment—23,070 or 28 percent from October 1971 to October 1975.

State direct expenditure for legal services increased 100 percent, from $108 million in FY 1971 to $216 million in FY 1975; judicial expenditure increased by 59 percent—from $313 million to $498 million.

Comparing October 1971 and October 1975, the monthly payroll for States' criminal justice employees increased 70 percent, from $165 million to $281 million. Table E shows the average monthly pay for a State criminal justice employee rose from $800 a month to $1,066 a month. In October 1975, the highest paid State criminal justice employees were in the judicial sector, averaging $1,461 a month, followed by legal services, public defense, police protection, "other criminal justice," and corrections.

Local trends (tables 10-29)

In absolute dollars, the increase in local government total expenditure from FY 1971 to FY 1975 ($3,839 million) nearly equaled the increase for the Federal and State governments combined ($1,570 million and $2,400 million respectively). However, the proportionate increase in local expenditure (58 percent) was lowest of the three levels. Local governments, of course, reported significantly less in intergovernmental expenditures, only $145 million in FY 1975 compared with $831 million for the Federal government and $709 million for the State governments. A large portion of Federal and State intergovernmental expenditure was grant funds, but local level intergovernmental expenditure more often represented required payments to the State, participation in a multigovernmental project (e.g., a regional jail), or payment for services rendered by another government (e.g., police services or boarding of prisoners).

Direct expenditure increases for individual sectors at the local level paralleled those at the State level; i.e., the sectors showing the greatest proportionate increases were "other criminal justice" (up $110 million, or 563 percent), public defense (up $77 million, or 151 percent), and legal services (up $245 million, or 83 percent). The sector showing the greatest absolute dollar increase was police protection (up $2,326 million, or 52 percent), followed by corrections (up $576 million, or 67 percent) and judicial (up $494 million, or 54 percent).

Local full-time equivalent employment increased at a much slower rate than expenditure, only 20 percent from FY 1971 to FY 1975. As with expenditure, the greatest proportionate increases were in the "other criminal justice" sector (238 percent, or 1,539 employees) and public defense (47 percent, or 1,152 employees). The largest absolute increase in employees occurred in the police protection sector—60,713 more employees (15 percent) in October 1975 than in October 1971.

Analyzing local criminal justice expenditure in total, however, tends to obscure important differences between the county and municipal levels of government. Figures 8 and 9 show the distribution of expenditures by county and municipal governments respectively among the various criminal justice sectors. Over 80 percent of municipal criminal justice expenditure in all 5 years was for police protection. County criminal justice expenditures were more evenly distributed with 34 percent expended for police protection, and between 25 to 30 percent each for corrections and judicial activities.

County direct expenditure increased 78 percent for all criminal justice activities from FY 1971 to FY 1975. Proportionately, the greatest increase occurred in the "other criminal justice" sector, which rose from $1.8 million to $64.5 million (or 3,526 percent), reflecting the growth of county criminal justice planning agencies and the increased grant funds received and expended by counties. Public defense expenditure also increased dramatically (148 percent, or $61 million) as counties continued to expand their public defense staffs and/or increased their payments for court-appointed counsel systems. Expenditure for legal services also increased—85 percent ($146 million). The greatest absolute dollar increase from FY 1971 to FY 1975 occurred in police protection, $565 million, up 77 percent. The increase in the corrections sector was also substantial: $480 million, or 85 percent.

County criminal justice full-time equivalent employment over the 5 years paralleled the upward expenditure trends: The greatest proportionate increases occurred in "other criminal justice" (670 percent, or 811 employees) and legal services (45 percent, or 7,159 employees). The police protection sector added the greatest number of full-time equivalent employees: 20,426 employees, or 30 percent. County police employees also made the greatest proportionate gain in pay, from an average of $764 per month in October 1971 to $1,018 per month in October 1975, a 33 percent increase. The highest paid employees in October 1975 were in the public defense sector, followed by legal services, police protection, "other criminal justice," corrections, and judicial (see table F).

Table E. **Average monthly salaries for State full-time equivalent employees in the criminal justice system, by activity: October 1971, 1972, 1973, 1974, and 1975**

Item	Total	Police protection	Judicial	Legal services	Public defense	Corrections	Other criminal justice
October 1975	$1,066	$1,057	$1,461	$1,266	$1,200	$971	$1,056

Percent change, 1971 to 1975	31.7	33.2	31.8	29.5	33.9	29.8	8.4

As with the counties, the "other criminal justice" and public defense sectors showed the greatest proportionate increases in municipal expenditure: 265 percent ($47 million) and 162 percent ($16 million) respectively. Although the proportionate gains were large, these two sectors accounted for 1 percent or less of total municipal criminal justice direct expenditure for all 5 years. As discussed earlier, the greatest share of municipal expenditure (83 percent in FY 1975) was for police protection, and this sector showed the greatest increase over the 5 years in terms of absolute dollars: $1,761 million, or 47 percent.

Municipal full-time equivalent employment increased in all criminal justice sectors except public defense, where there was a decrease of 6 percent representing only 12 employees. There is a growing reliance in municipal government on the use of court-appointed or publicly funded private attorneys, rather than staff attorneys. As with counties, the largest increase in number of employees was in the police protection sector: 40,287 more employees in October 1975 than in October 1971, an increase of 12 percent. However, municipal corrections employees made the greatest proportionate gain in average pay—36 percent, climbing from $824 a month in October 1971 to $1,120 a month in October 1975. Police employees made the second largest gain, rising from $841 to $1,117 (33 percent). In October 1975, municipal employees in the legal services sector drew the highest average pay, followed by "other criminal justice," corrections, police protection, public defense, and judicial (see table G).

Summary

Proportionately, at all levels of government, the fastest growing criminal justice sectors from FY 1971 to FY 1975 were "other criminal justice" and public defense (with the exception of the Federal government), reflecting the increase in grant funds authorized by Congress and distributed by LEAA and the growing efforts of government to provide counsel for the indigent. However, both sectors began with relatively small dollar expenditures in FY 1971 and even with increases of several hundred percent over the 5 years, the dollar amounts in FY 1975 constituted less than 4 percent of total criminal justice expenditure. The dominant sectors, those areas in which government expended the greatest number of dollars and required the greatest number of employees, were police protection first and corrections second.

Figure 10 presents State-by-State per capita expenditures for criminal justice activities of State and local governments in fiscal years 1971 and 1975. The per capita data were computed on the basis of total criminal justice expenditure by the State and local governments in each fiscal year and population estimates as of July 1 in each year.

Per capita expenditure in the United States rose 58 percent, from $45 in 1971 to $71 in 1975. In both years, the District of Columbia showed the highest expenditure per capita for criminal justice activities: $196 in 1971 and $280 in 1975. Among the States, Alaska led the nation in per capita criminal justice expenditure in both years ($105 in 1971 and $193 in 1975), followed by Nevada ($78 in 1971 and $129 in 1975), New York ($85 in 1971 and $114 in 1975), and California ($69 in 1971 and $105 in 1975).

SURVEY METHODOLOGY—SOURCES AND LIMITATIONS OF THE DATA

Survey coverage

The annual survey through which basic figures for this report were collected covers the Federal government, all State governments, and a representative sample of local governments within each State. Data were collected for all county governments (regardless of size), for all municipalities (and townships in the New England and Middle Atlantic States) having a 1970 population of 10,000 or more, and for a sample of the remaining cities and townships of less than 10,000 population, selected according to the relative size of their annual expenditures as reported in the 1967 and 1972 Censuses of Governments. The survey panel, therefore, includes the Federal Government, the 50 State governments, and 9,045 local governments (the 3,043 county governments, 4,305 municipalities, and 1,697 townships).

The survey period

The Federal and State expenditure data presented in this report cover the fiscal years ending June 30 of each year from 1971 to 1975, except for three States with fiscal years ending as follows: New York, March 31; Texas, August 31; and Alabama, September 30. However, there are some State agencies that operate on a different fiscal year basis from the rest of the State government. In such instances, figures shown are for the agency's fiscal year that ended within the State's regular fiscal year.

For local governments, the fiscal years reported are those that ended between July 1 and June 30 of each year. Most municipalities or counties end their fiscal years on either December 31 or June 30.

Employment data shown for Federal, State, and local governments are for October of each year.

Data collection

The annual survey is accomplished using two methods of data collection: Field compilation and mail canvass. Trained field representatives compiled expenditure and employment data for the 50 States, the largest counties (population of 100,000 or more), the largest cities (population of 50,000 or more) and selected smaller units, using the governments' own records and the definitions presented in appendix 1. All other units in the sample were canvassed by mail for expenditure and employment data. Response for field-compiled units in all years was 100 percent. The response from mail canvass units was 80 percent for the FY 1971 survey year, 89 percent for FY 1972, 92 percent for FY 1973, 92 percent for FY 1974, and 95 percent for 1975.

The field survey efforts and mail canvass were supplemented by reference to a variety of published government documents such as budgets, financial statements, and audit reports. In some cases, such sources were the basis for breakdowns of totals into more detailed employment and expenditure figures.

Beginning with FY 1971, the expenditure and employment data for the Federal Government were collected through a special mail survey, with telephone followup, of Federal criminal justice agencies in accordance with definitions used for State and local governments (see appendix 1).

Data limitations

The sample selected to develop local government figures is one of all possible samples of the same size that could have been chosen using the same sampling design. Estimates derived from these different samples would differ from each other and also from a complete census using the same data collection procedures. This variation among all possible estimates is sampling error. Because all State and county governments are included in the survey, State and county figures are not subject to sampling error.

The local government sample was designed to produce an estimate for each State of the portion of total criminal justice expenditure made by local governments with a relative sampling error of less than one-half of 1 percent. For the fiscal year 1975 data, the errors were less than one-half of 1 percent in all but 11 States. However, in all 50 States, the errors were less than three-quarters of 1 percent, at the 95 percent confidence level.

The relative sampling error of the State-by-State estimates of FY 1975 local government criminal expenditure was calculated at the two-thirds confidence level and found to be within 3 percent of the estimated totals for all but 2 States and less than 2 percent for 37 States. The results of the computation of standard errors for fiscal year 1975 local government totals on a relative standard error basis are summarized in table H below.

Because State government figures are not subject to sampling variation, the State-local aggregates shown for individual States are relatively more reliable than the local government estimates they include.

Table H. Relative standard errors of local government totals of criminal justice expenditure: FY 1975

0.5 or less	0.5-1.0	1.0-2.0		2.0-3.0	3.0-4.0
Alaska	Arizona	Colorado	New Jersey	Alabama	South Carolina
California	Connecticut	Delaware	New Mexico	Arkansas	Wyoming
Hawaii	Indiana	Florida	North Carolina	Idaho	
Nevada	Maryland	Georgia	Ohio	Minnesota	
New York	Massachusetts	Illinois	Oklahoma	Missouri	
Rhode Island	Michigan	Iowa	Oregon	Nebraska	
	Texas	Kansas	Pennsylvania	New Hampshire	
		Kentucky	South Dakota	North Dakota	
		Louisiana	Tennessee	Utah	
		Maine	Vermont	West Virginia	
		Mississippi	Virginia	Wisconsin	
		Montana	Washington		

The estimated data are also subject to the inaccuracies in classification, response, and processing that would occur if a complete census had been conducted under the same conditions as the sample survey. Every effort was made to keep such errors to a minimum through care in examining, editing, and tabulating the data submitted by government officials. Followup procedures were used extensively to clarify inadequate and inconsistent survey returns.

Readers should be generally cautious in comparing governments, because differences in functional responsibilities from State-to-State and government-to-government can affect the comparability of expenditure and employment data. For example, some State governments directly administer certain activities that elsewhere are undertaken by local governments, with or without fiscal aid, and the same variation in the division of responsibilities exists for counties and cities.

Because of rounding, the detail data in some tables may not add precisely to the totals shown.

Changes in survey methodology

As discussed earlier, this series of annual reports began with FY 1967. The survey originated in the Bureau of the Census as a special in-house study in which police protection, judicial, and corrections data were extracted for selected large governments from data compiled in the Bureau's regular annual finance and employment sample surveys. In the FY 1969 survey, prosecution and public defense were added to the original three criminal justice categories, coverage was extended to the entire regular annual survey sample of counties and municipalities, and a mail canvass questionnaire designed specifically to elicit criminal justice data was used for all but the largest governments, which were canvassed by field agents. These changes must be taken into account in making year-to-year comparisons from FY 1967 through FY 1970.

In the FY 1970 report, individual unit data were published for 128 large counties (as compared with 55 counties in earlier reports) and for 158 large cities (compared with 48 cities in earlier reports). The Federal expenditure data presented in all reports through FY 1970 were extracted from the Budget of the United States Government, and the employment data were provided by the U.S. Civil Service Commission.

For the FY 1971 survey, a new and enlarged panel of local governments was drawn specifically for the criminal justice expenditure and employment survey to include all county governments and a larger representation of municipalities and townships, to produce more reliable estimates for use by LEAA in the allocation of block grant funds between State and local governments. The data presented in reports since FY 1971 and summarized in this present report are therefore essentially comparable, because they are derived from the same sample using the same methods of data collection and processing. The only significant variations occurred in classification of certain expenditure items discussed in detail in the following section.

Changes in classification

In the FY 1971 report, police protection expenditure included amounts expended for traffic safety and related traffic engineering. Beginning with the FY 1972 report, these expenditures were excluded from the police protection figures. Also, data for special police forces administered by general purpose governments (such as airport police, park police, housing police, etc.) were included in the police protection figures if the force employed 10 or more full-time sworn officers with general arrest powers. Beginning with the FY 1972 report, data for these forces were included regardless of size.

In the FY 1971 report, correctional expenditure figures covered a number of drug and alcohol abuse facilities and programs administered by assorted agencies, departments, and private organizations receiving public funding. Beginning with the FY 1972 report, these institutions and programs were included only if administered by a correctional agency of the criminal justice system.

In many States, statutes either require or permit local governments to supplement the salary of State-paid judges of major trial courts. In the FY 1971 report, an attempt was made to count these judges and their total payroll at the State level only. However, this effort was not uniformly successful. Therefore, beginning with the FY 1972 report, judges actually receiving a check from both the State and local governments were counted as part-time employees at both levels.

Measuring the impact of these changes from year to year is virtually impossible, primarily because governments on the survey mail panel are requested to provide only summary data for each major criminal justice activity. This prevents a year-to-year comparison of expenditures for the classification subcategories within each major activity. To a lesser extent, changes in governments' fiscal periods, accounting, and classification practices from year to year pose procedural difficulties in measuring the impact of changes in classification used in this survey.

AVAILABILITY OF DATA

Copies of the annual reports Expenditure and Employment Data for the Criminal Justice System for fiscal years 1967 through 1975 and Trends reports covering FY 1971-1973 and FY 1971-1974 are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402; U.S. Department of Commerce District Offices; and the National Criminal Justice Reference Service, Post Office Box 24036, Southwest Station, Washington, D.C. 20024. The data are also available on magnetic tape and computer printout. For details, write to the Statistics Division, National Criminal Justice Information and Statistics Service, Law Enforcement Assistance Administration, Washington, D.C. 20531.

Section I. VARIABLE PASS-THROUGH DATA

The data in this table were developed to comply with the Omnibus Crime Control and Safe Streets Act of 1968 as amended, which requires that the block grants made by the Law Enforcement Assistance Administration to each State be allocated between the State and local governments according to the ratio of State-to-local law enforcement expenditure from their own revenue sources.

The concept of "expenditure from own sources" specified in the law and used in the data collection means that the expenditure figures from which the State-to-local ratio was developed do not include amounts expended from revenue received from other governments. For example, State or local government expenditure from sales or property tax revenue are included but not amounts expended from intergovernmental revenue, such as Federal grant monies. (It should be noted that this is the only table in this publication based on this concept. All other expenditure tables reflect expenditure from all sources.)

Specifically for local government, any expenditure from revenue received from another local government, or received directly from the Federal Government or from the State government must be excluded. Likewise for State governments, expenditure from revenue received from local governments or from the Federal Government must be excluded.

The following items were deducted from total criminal justice expenditure of local governments to arrive at local government expenditure from own revenue sources: Revenue received directly from the Federal Government for criminal justice purposes, State payments to local governments for criminal justice purposes, and payments from local government(s) to other local government(s) for criminal justice purposes. The same procedure was followed to arrive at State government expenditure from own revenue sources. Criminal justice revenue received directly from the Federal Government and local criminal justice payments to the State government were deducted from the total State expenditure for criminal justice. This procedure assumes that all intergovernmental payments received by a government will be expended during the same fiscal year they were received. While this may not be the case in a particular year, any discrepancy will cancel out over time.

Table 1. Percent distribution of total criminal justice expenditure from own sources of State and local governments, by State: fiscal years 1971-1975

(Dollar amounts in thousands)

Note: The local governments portion of all governments data are estimates subject to sampling variation; see text for data limitations. Data and percent distributions for total criminal justice system and other criminal justice for fiscal years 1971, 1972, 1973, and 1974 are revised. See text.

rRevised.

[1]The total line for each sector, and for the total criminal justice system, excludes duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount were tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount. No intergovernmental expenditures are shown for the same reason.

Table 3. Percent change in employment and payrolls for the criminal justice system for all governments: October 1971-October 1975

Direct expenditure	66,344	126,872	133,479	198,962	257,478	91.2	5.2	49.1	29.4	288.1
Intergovernmental expenditure	(1)	(1)	(1)	(1)	(1)	(1)	(1)	(1)	(1)	(1)

Note: The local governments portion of State and local governments data are estimates subject to sampling variation; see text for data limitations.

[1]The total line for each sector, and for the total criminal justice system excludes duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount were tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount. No intergovernmental expenditures are shown for the same reason.

Table 7. Percent change in employment and payrolls for the criminal justice system for State and local governments: October 1971-October 1975

(Dollar amounts in thousands)

Activity	October 1971	October 1972	October 1973	October 1974	October 1975	Percent increase or decrease (-)

– Represents zero or rounds to zero.

r Revised.

[1] Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2] For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

Table 17. Percent change in criminal justice system full-time equivalent employment and payroll, by State and type of government: October 1971-October 1975

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

Table 19. Percent change in police protection full-time equivalent employment and payroll, by State and type of government: October 1971-October 1975

State and type of government	Employment and payroll[1]

- Represents zero or rounds to zero.

X Not applicable.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.
X Not applicable.

[1]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

[2]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

- Represents zero or rounds to zero.

X Not applicable.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

- Represents zero or rounds to zero.
X Not applicable.

[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2]For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

Table 27. Percent change in corrections full-time equivalent employment and payroll, by State and type of government: October 1971-October 1975

- Represents zero or rounds to zero.
r Revised.
X Not applicable.

[1] Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

[2] For each State, and the United States summary, the expenditure figures shown on the "Local, total" line and the combined State-local line (the data shown opposite the names of the individual States) exclude duplicative intergovernmental expenditure amounts. This was done to avoid the artificial inflation which would result if an intergovernmental expenditure amount for one government is tabulated and then counted again when the recipient government(s) ultimately expend(s) that amount.

Table 29. Percent change in other criminal justice full-time equivalent employment and payroll, by State and type of government: October 1971-October 1975

State and type of government	Employment and payroll[1]

Z Less than half the unit of measurement shown.
[1]Data for municipalities, and the local governments totals which include municipal data, are estimates subject to sampling variation; data for counties (boroughs, parishes) are based on a canvass of all county governments and therefore are not subject to sampling variation; see text for data limitations.

APPENDIX 1: DEFINITION OF TERMS

Following is a glossary of terms, concepts, and categories used in this report and the annual report and comments concerning their limitations.

The definitions are those applied in the field compilation of data for the 50 States, 334 largest counties, and 394 largest cities. These definitions were necessarily summarized for inclusion in the survey questionnaires (see appendix 2) sent to governments in the mail portion of the survey.

Government expenditure

Expenditure is all amounts of money paid out (net of any correcting transactions) other than for retirement of debt (including interest) investment in securities, extensions of loans, or agency transactions. It includes only external cash payments and excludes any intragovernmental transfers and noncash transactions, such as the provision of meals or housing of employees. It also includes any payments financed from borrowing, fund balances, intergovernmental revenue, and other current revenue. In several instances, two or more governments share the expense of maintaining a court or other criminal justice agency. In these cases, the allocable direct expenditure amount is reported for each government in the appropriate category. When a government pays pensions directly to retired employees from appropriated funds, such payments are included as expenditure of the government concerned. However, State and local government contributions to retirement systems and various other employee benefits are not included in expenditure data, since the majority of governments make lump-sum contributions to plans covering all government employees and cannot report for criminal justice employees separately. Neither in government's basic accounting records (from which criminal justice expenditure figures are drawn) nor in the records of their general-coverage employee benefit systems is there usually any breakdown of amounts contributed in terms of the various agencies or functions involved. Nor has an adequate procedure for calculating the proportion of such contributions allocable to criminal justice employees been developed because of the wide variation in the coverage of various plans, employee status requirements, benefit rates, etc.

For those governments whose records reflect contributions of criminal justice employees separately, separate data were obtained. However, these data are subject to the same variation referred to above, and neither the amount nor the quality of the data reported would permit any attempt to estimate total contributions for all similar governments in a given State. Given the problems involved, no estimation procedure seems feasible. Such data as were reported separately were therefore excluded from total criminal justice expenditures to provide a consistent data base for administering the "variable pass-through" requirement.

Expenditure is divided into two major categories by character:

1. Direct expenditure is all expenditure except that classed as intergovernmental and is further divided into two principal object categories:

a. Direct current, which includes salaries, wages, fees, and commissions, purchase of supplies, materials, and contractual services.

b. Capital outlay, which includes expenditure for the three subcategories below:

Construction: Production of fixed works and structures, and additions, replacements and major alterations thereto undertaken either on a contract basis by private contractors or through force account construction by the employees of the government. Included are the planning and designing of specific projects, the grading, landscaping, and other site improvement, and the provision of equipment and facilities that are integral parts of the structure.

Equipment: Purchase and installation apparatus, furnishing, office equipment, motor vehicles and the like having an expected life of more than 5 years. This includes both additional equipment and replacements. Rentals for equipment, including rental payments that may be credited on the purchase price if purchase options are exercised, are classified as direct current expenditure. Equipment and facilities that are integral parts of constructed or purchased structures are classified respectively under construction or purchase of land and existing structures.

Purchase of land and existing structures: Purchase of these assets as such, purchase of rights-of-way, and title search and similar activities associated with purchase transactions.

The other object categories—interest on general debt, assistance and subsidies, and insurance benefits—are not applied to specific functions because they are not ordinarily available on a functional basis from government financial reports. In the few instances where bonded or mortgaged general indebtedness is identified for specific purposes, the interest payments are aggregated with other interest expenditures which make it virtually impossible to arrive at reliable and consistent breakouts of such data over a long period of time.

2. Intergovernmental expenditure is payments from one government to another, including grants-in-aid, shared revenues, payments in lieu of taxes, and amounts for services performed by one government for another on a reimbursable or cost-sharing basis (for example, payments by one government to another for boarding prisoners).

Total expenditure is direct and intergovernmental expenditure of a government or level of government for criminal justice activities.

Total general expenditure is all expenditure of a government or level of government for all government functions, including criminal justice activities, but excluding utility system expenditure, liquor store expenditure, and insurance trust expenditure.

Total general expenditure shown for the local level of government includes expenditure only of general purpose governments, and excludes expenditure of special districts and school districts.

Government employment

Employees includes all persons paid for personal services performed, including all paid officials and persons in paid leave status, and excludes unpaid officials, persons on unpaid leave, pensioners and contractors. Under this definition are two classes:

1. Full-time employees, who are all persons employed during the pay period including October 15, 1975, on a full-time basis, including all full-time temporary or seasonal workers employed during this pay period, as well as persons having permanent status.

2. Part-time employees, who are persons employed during the pay period including October 15, 1975, on a basis other than full-time, and persons paid by more than one government.

Derived from these two classes is:

Full-time equivalent employees, which means the total number of employees, discounted by applying average full-time earning rates. This is calculated by dividing the total payroll (full-time plus part-time) by the full-time payroll and multiplying this by the number of full-time employees.

Payroll is the gross payroll before deductions and includes salaries, wages, fees and commissions paid to employees as defined above for the month of October 1975.

Governmental functions

Police protection is the function of enforcing the law, preserving order, and apprehending those who violate the law, whether these activities are performed by a police department, a sheriff's department, or a special police force maintained by an agency whose prime responsibility is outside the criminal justice system, but which has a police force to perform these activities in its specialized area (geographic or functional).

Included in this activity are regular police services, the maintenance of buildings used for police purposes, and such specialized police forces (including public and private contract forces) as airport police, free and toll highway police, free and toll bridge and tunnel police, housing police, maritime police, park police, transit and other utility system police, college and university campus police, and alcoholic beverage control agents. Coroners and medical examiners are also included. Excluded are vehicular inspection and licensing, traffic safety and engineering, fish and game wardens, fire marshals, and the like.

The special police forces included in the data are only those which are part of general purpose governments. Security forces, building guards, school crossing guards, and meter maids without general arrest power were excluded. Those special police forces that are part of independent school districts or special districts are not included in the data, inasmuch as these districts are not general purpose governments. However, data for selected larger special police forces of these districts are displayed in appendix 1, tables A and B. In addition, data for State and local government dependent colleges and universities are displayed in tables C and D.

In most States, sheriffs' departments are multifunctional agencies providing police protection, judicial, and/or correctional services. In order to allocate expenditure and employment data to the proper activity, the data for sheriffs' departments are prorated using factors developed from a special survey of sheriffs' departments conducted in 1973, or more current estimates of manpower distribution if available.

Short-term custody and detention have traditionally been considered part of the police protection function; and in editions prior to the 1969-70 report, were treated as such. However, beginning with the 1969-70 report, the concept was modified on the basis of information obtained from the 1970 National Jail Census. Data for institutions with authority to hold prisoners 48 hours or more are included in the "corrections" sector. Data for lockups or "tanks" holding prisoners less than 48 hours are included in the "police protection" sector.

Chancery courts

Arkansas	Mississippi
Delaware	Tennessee

County courts

New Jersey	Vermont
New York	Wisconsin

Common pleas courts

Missouri
Ohio
Pennsylvania

Supreme court

New York

3. Courts of limited jurisdiction are courts whose legal jurisdiction covers only a particular class of cases or cases where the amount in controversy is below a prescribed sum or is subject to specific exceptions. Included under this category are probate courts, juvenile courts and other courts of limited jurisiction.

Probate courts are also called orphans courts, surrogate's courts, or courts of ordinary. The subject jurisdiction varies from place to place, but generally includes estate settlement; probate and contest of wills; adoption; commitment of the insane; administration of the affairs of orphans, mental defectives and incompetents; guardianship of minors; apprenticeship; receivership; change of name proceedings; and the administration of trusts.

Juvenile courts are those that deal primarily with delinquent and neglected children regardless of the name of the court. In various places such courts are called juvenile courts, family courts, juvenile and domestic relations courts, domestic relations courts, or other similar names. The jurisdiction of these courts can include crimes committed by persons under legal age; juvenile status offenses; offenses against children; probation of minor delinquents; adoption, custody, or disposition of minor and mentally incompetent children; child neglect or abandonment; child and wife support; and paternity.

Other courts includes various other State and local courts with limited jurisdiction such as justices of the peace, district magistrates, justice courts, county courts of limited jurisdiction, municipal courts, city courts, etc. Also included are specialized courts such as tax courts, courts of claims, and courts having jurisdiction over more than one type of case (e.g., a court that handles both juvenile and probate cases).

4. Miscellaneous judicial includes data on judicial activities that could not be reported under any of the above court categories, such as judicial councils and conferences, court administration offices (where identifiable), law libraries, jury commissions, and grand juries.

Legal services and prosecution includes the civil and criminal justice activities of the attorneys general, district attorneys, State's attorneys, and their variously named equivalents; corporation counsels, solicitors, and legal departments with various names. It includes providing legal advice to the chief executives and subordinate departmental officers, representation of the government in lawsuits, and the prosecution of accused violators of criminal law. These activities are included whether performed by one office or several, because in some jurisdictions a single officer provides all legal services, whereas in others a prosecutor's office handles only criminal matters, and a separate attorney's office performs all civil legal services. The operations of various investigative agencies having full arrest powers and attached to offices of attorneys general, district attorneys, or their variously named equivalents are also included.

Public defense includes legal counsel and representation in either criminal or civil proceedings as provided by public defenders, and other government programs that pay the fees of court-appointed counsel. These include court-paid fees to individually retained counsel, fees paid by the court to court-appointed counsel, government contributions to private legal aid societies and bar association-sponsored programs, and the activities of an established public defender office or program. Employment data are included only for public defenders' offices, because fee-paid counselors are not considered government employees, nor are counselors working for bar associations or legal aid societies.

Judicial activities encompass all civil and criminal courts and activities associated with courts such as law libraries, grand juries, petit juries, and the like. Since the names of courts with similar functions and legal jurisdiction vary from State to State and even within States, data have been categorized by types of court rather than by court name.

1. Appellate courts include courts of last resort and intermediate appellate courts. These are courts having jurisdiction of appeal and review, with original jurisdiction conferred only in special cases.

a. Court of last resort is the court of final appeal within the judicial structure of each State. It is called the "Court of Appeals" in the District of Columbia, Maryland, and New York; the "Supreme Court of Appeals" in West Virginia; the "Supreme Judicial Court" in Maine and Massachusetts. In Texas and Oklahoma two courts of last resort are authorized—the "Court of Criminal Appeals" for criminal cases and a "Supreme Court" for civil cases. In every other State the court of last resort is titled the "Supreme Court."

b. Intermediate appellate courts are those that are limited in their appellate jurisdiction by State law or at the discretion of the court of last resort. In 16 of the 25 States with a court of this type operating in fiscal year 1974-75 the name "court of appeals" is used. These States are:

Arizona	Kentucky	New Mexico
California	Indiana	North Carolina
Colorado	Louisiana	Ohio
Florida	Michigan	Oklahoma
Georgia	Missouri	Oregon
		Washington

In Illinois the title is "Appellate Court"; in Maryland, "Court of Special Appeals"; in Massachusetts, "Appeals Court"; in New Jersey, "Appellate Division of the Superior Court"; in New York[1], "Appellate Division of the Supreme Court"; and in Texas, "Court of Civil Appeals." In Alabama the civil and criminal cases are heard on appeal by separate courts—a "Court of Civil Appeals" and a "Court of Criminal Appeals." In Tennessee the "Court of Appeals" hears only civil appeals; a separate "Court of Criminal Appeals" reviews criminal cases before review by the court of last resort. In Pennsylvania the "Commonwealth Court" reviews all cases brought by or against the State government or its agencies; the "Superior Court" reviews all other appeals except those within the exclusive jurisdiction of the court of last resort.

2. Courts of general jurisdiction are trial courts having unlimited original jurisdiction in civil and/or criminal cases, the names of which vary considerably. The list below shows the title of the courts of general jurisdiction in each State. Several States are listed more than once because local situations led to the development of separate courts, either to hear cases involving different types of pleadings or to hear cases in particular local jurisdictions.

In many States, statutes either require or permit local governments to supplement the salary of State-paid judges of general jurisdiction courts. These judges were counted as part-time employees at both the State and local levels when actually receiving a check from both governments.

Circuit courts

Alabama	Kentucky	South Carolina
Arkansas	Maryland	South Dakota
Florida	Michigan[2]	Tennessee[2]
Hawaii	Mississippi	Virginia
Illinois	Missouri	West Virginia[2]
Indiana	Oregon	Wisconsin

District courts

Colorado	Minnesota	North Dakota
Idaho	Montana	Oklahoma
Iowa	Nebraska	Texas
Kansas	Nevada	Utah
Louisiana	New Mexico	Wyoming

Superior courts

Alaska	District of Columbia	New Hampshire
Arizona	Georgia	New Jersey
California	Indiana[2]	North Carolina
Connecticut	Maine	Rhode Island
Delaware	Massachusetts	Washington

Corrections is that function of government involving the confinement and rehabilitation of adults and juveniles convicted of offenses against the law and the confinement of persons suspected of a crime and awaiting adjudication. Data for institutions with authority to hold prisoners 48 hours or more

[1] There are also three appellate terms of the Supreme Court that have jurisdiction in specific cases that would otherwise be heard by the appellate division.

[2] In these States, the above-named courts are supplemented in some counties and cities by general jurisdiction courts with varying names.

are included in this sector. Data for lockups or "tanks" holding prisoners less than 48 hours are included in "Police Protection." Correction includes the operation of prisons, reformatories, jails, houses of correction, and other institutions. It also includes institutions, facilities and programs exclusively for the confinement of the criminally insane or for the examination, evaluation, classification, and assignment of inmates and institutions and programs for the confinement, treatment, and rehabilitation of drug addicts and alcoholics if the institution or program is administered by a correction agency of the criminal justice system. Pardon boards and parole and probation agencies, including resettlement or halfway houses for those not in need of institutionalization, are included in the correction sector as a separate subcategory.

1. Correctional institutions are prisons, reformatories, jails, houses of correction, penitentiaries, correctional farms, workhouses, reception centers, diagnostic centers, industrial schools, training schools, detention centers, and a variety of other types of institutions for the confinement and correction of convicted adults or juveniles adjudicated delinquent or in need of supervision, and for the detention of those adults and juveniles accused of a crime and awaiting trial or hearing. When an institution maintains a prison industry or agricultural program, data on the cost of production or the value of prison labor used by agencies of the same government, if identifiable, are excluded (and classed as expenditure for the function using the products or services). Expenditure for the manufacture, production, sale, and distribution of goods produced for sale or use outside the government are included under this heading.

a. Institutions for men includes identifiable expenditure and employment data for institutions exclusively for adult male offenders.

b. Institutions for women includes identifiable expenditure and employment data for institutions exclusively for adult female offenders. Where there is no separate women's prison, women offenders are either maintained in a prison complex that also houses other offenders or are boarded in private facilities or institutions in another State. No attempt was made to prorate data on institutions housing more than one type of inmate, but where females are boarded in private institutions or in another State, available expenditure data was tabulated. Employment data were not tabulated because the personnel were employees of another government.

New Hampshire boards its female offenders in the Massachusetts Correctional Institution (for Women). Montana operates a split system, housing some females at the Warm Springs State Hospital and contracting with Nebraska for the rest. Vermont also operates a split system, housing some females and contracting with Massachusetts for the rest. North Dakota and Wyoming house all of their female offenders in the Nebraska Reformatory for Women and Idaho contracts with the State of Oregon for boarding its female offenders in the Oregon Women's Correctional Center.

c. Institutions for juveniles are those institutions identified by the 1974 Juvenile Detention and Correctional Facility Census as housing primarily juveniles and in some States, "youthful offenders." These institutions include those under the control of a juvenile court, a probation department, or a youth authority or other similarly designated administrative body, as well as independently administered institutions. Also included are government payments to private agencies for the detention or treatment of delinquent juveniles.

There is considerable variation from State to State in the legal definition of a juvenile, particularly in regard to the age at which a person is no longer considered a juvenile. Institutions for juveniles have been classified individually in accordance with the laws and age designations of their respective States. Institutions housing youths treated as adults by the courts or other authority were included in the institutions for men category.

d. Other and combined institutions are those institutions holding a combination of inmates. Where expenditure or employment data for physically separate institutions for juveniles, adult females, and adult males were not separable by institution or type of institution, the entire amounts were included under this category.

2. Correctional administration consists of data for the administration of the correctional system, including data on the central administrative office (for example, the department of corrections or a youth authority) and available data on the administration of individual correctional institutions. For some individual institutions, administration data were not segregable from data on the operation of the institution.

3. Probation, parole, and pardon includes data on probation agencies, boards of parole, boards of pardon, and their variously named equivalents. Although probation agencies frequently function under the administration of the general jurisdiction court, the data are presented here after having been deducted from the judicial data, because of the correctional nature of the probation function. If the probation, parole, and pardon activities, or any of them individually, were part of the correctional administrative office, data were deducted and shown separately here, and the balance was shown under the correctional administration category. The overlapping character of the probation, parole, and pardon activities prevented the separate presentation of these data.

4. Miscellaneous correction includes expenditure and employment data that could not be classified under one of the other subcategories.

Other criminal justice activities, shown in some tables, includes expenditure or employment data that are not elsewhere classified, that cut across more than one category, or that are not allocable to separate categories; e.g., expenditure on a general curriculum in educational institutions, the operation of State criminal justice agencies, crime commissions, etc. Such data are included in the totals, where they are not shown separately.

APPENDIX 2: SURVEY FORMS

Form CJ-6 Survey of Expenditure and Employment for Civil and Criminal Justice Activities of Local Governments

This form is mailed to the chief financial officer of the counties and municipalities surveyed.

Form CJ-6D Survey of Expenditure and Employment for Civil and Criminal Justice Activities of Local Governments (Fee-Supported Offices)

This form is mailed to the fee-supported offices of Sheriff and/or Clerk of Court in the States of Florida, Kentucky, Louisiana, and Tennessee. The form was used for the first time in the FY 1973 survey. In FY 1971 and FY 1972, Form CJ-6 (see above) was sent to the fee-office respondents but with special instructions directing them to complete only the pertinent portions of the form (police protection, judicial, and corrections).

Form CJ-23 Survey of Expenditure and Employment for Selected Special Police Forces

This form is mailed to special police forces serving colleges and universities, special districts, and independent school districts. Data for college and university forces are incorporated in the police data for the parent government. Data for special police forces serving independent school districts or special districts are not included in the regular police protection data, inasmuch as these districts are not general purpose governments. However, data for selected larger police forces serving such districts are displayed in appendix 1, tables A and B of each of the annual volumes. Beginning with the 1975 annual volume, data for dependent colleges and universities are displayed in appendix 1, tables C and D.

Form CJ-25 Survey of Expenditure and Employment for Civil and Criminal Justice Activities of the Federal Government

This form is mailed to the chief financial or administrative officer of the individual Federal agencies, bureaus, and offices identified as part of the criminal justice system. A list of the units canvassed in each of the survey years is presented in tables 4 and 5 of the annual volumes.

Note: There have been minor variations in the survey forms from year to year. The forms used in a given year are displayed in the annual volume for that year. The forms displayed here were used in the FY 1975 survey.

IMPORTANT – PLEASE READ

INSTRUCTIONS FOR
Part II – EXPENDITURE, PAGE 2

- If your government's fiscal year ends on December 31, enter annual expenditure for calendar year 1974 (even though calendar year 1975 data may be available).
- If your government's fiscal year ends on June 30, enter annual expenditure for the period July 1, 1974–June 30, 1975.
- If your government's fiscal year ends on a date other than December 31 or June 30, enter annual expenditure for your government's fiscal year which **ended between** July 1, 1974 and June 30, 1975.

Dear Friend:

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects public expenditure and employment data for six criminal justice functions: police protection, judicial, legal services and prosecution, indigent defense, corrections, and other criminal justice. Your cooperation in completing this year's questionnaire will be appreciated.

The data collected in this voluntary survey are utilized by the Law Enforcement Assistance Administration in implementing and administering the planning and action grant programs of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System.**

It would be most helpful if we could receive your reply within 3 weeks. A preaddressed envelope is enclosed for your convenience. If you have any problems in filling out this questionnaire, you may call collect for assistance on area code (301) 763-7825 or (301) 763-2843.

Sincerely,

Vincent P. Barabba

VINCENT P. BARABBA

ITEM B – Revenue direct from the Federal Government

Enter all revenue your government received for **criminal justice** activities **direct** from the Federal Government (not passed through any State agency) in your fiscal year which ended between July 1, 1974 and June 30, 1975.

$

DEFINITIONS

Part I – EMPLOYMENT AND PAYROLL

- **EMPLOYEES** – All persons paid by your government for personal services performed, including all officials, salaried workers, and other persons in paid leave status. **Exclude** unpaid officials, persons on unpaid leave, pensioners, contractors and their employees, and persons paid entirely by another government for services performed for your government.

  Full-time employees (column a) – Persons employed on a full-time basis during the one pay period which included October 15, 1975. **Include** all full-time temporary or seasonal workers employed during this pay period.

  Part-time employees (column c) – Persons employed on a part-time basis during the one pay period which included October 15, 1975. **Include** here all persons working for your government who are paid by more than one government (e.g., with supplemental check).

- **PAYROLL (columns b and d)** – Gross payroll before deductions including salaries, wages, fees, or commissions earned during the one pay period which included October 15, 1975, by employees as defined above. If some employees are paid on a basis different from the predominant pay period, please include amounts for them on an adjusted basis.

Part II – EXPENDITURE

- **CURRENT OPERATION (column e)** – Annual expenditure for salaries and wages of your government's officers and employees and for the purchase of supplies, materials, and contractual services from individuals and firms in the private sector, e.g., attorney retainers or fees to court-appointed counsel. **Exclude** all capital outlay (see below), debt retirement, securities investment, loan extensions, within-government transactions, and employer contributions for employee benefits (report in column "j").

Part II – EXPENDITURE – Continued

- **CAPITAL OUTLAY (column f)** – Direct expenditure for contract or force account construction of buildings and other improvements, and for the purchase of equipment, land, and existing structures.

- **INTERGOVERNMENTAL EXPENDITURE** – All money paid to other governments as fiscal aid, or payment for services rendered, or for contracts or compacts with another government (e.g., purchase of police services or care and boarding of prisoners in another government's jail). **Exclude** money paid to another government for the purchase of commodities, property or utility services, any taxes imposed and paid as such, and contributions for social insurance.

  Payments to other local governments (column g) – Payments of your government to another county, city, town, special district, or school district.

  Payments to the State government (column h) – Payments of your government to the State government or any of its departments or agencies.

- **GOVERNMENT CONTRIBUTIONS FOR EMPLOYEE BENEFITS (column j)** – Any employer contributions, **separable by activity**, to the Federal Social Security program, State and local retirement systems, commercial or mutual life insurance plans, workmen's compensation funds; and premiums paid by your government for health, hospital, disability, and other insurance programs. **Exclude** payments made directly to individuals and contributions made **by employees** to any of the above programs.

- **ITEM A** – Report the pay period interval for which all or most of the full-time (or part-time) employees are paid.

- **ITEM B – REVENUE DIRECT FROM THE FEDERAL GOVERNMENT** – Enter only revenue received **directly** from the Federal Government. For example: that portion of General Revenue Sharing used for criminal justice purposes, not the entire entitlement(s); for boarding and feeding of Federal prisoners, Alcohol Safety Action Programs, etc. Do not enter amounts from the Federal Government received through the State or any of its departments or agencies.

Dear Friend:

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects public expenditure and employment data for various criminal justice activities. Since the fee-supported offices of Sheriff and Clerk of Court are included as part of the civil and criminal justice system, we will appreciate your cooperation in again providing information for three of these activities as they apply to your office: police protection, judicial, and corrections.

The data collected in this voluntary survey are utilized by the Law Enforcement Assistance Administration in implementing and administering the planning and action grant programs of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System.**

If your office has converted from a fee-supported to a county or State-supported office, please follow the instructions at the top of page 2 of this questionnaire.

It would be most helpful if we could receive your reply within 3 weeks. A preaddressed envelope is enclosed for your convenience. If you have any problems in filling out this questionnaire, you may call collect for assistance on area code (301) 763-7825 or (301) 763-2843.

Sincerely,

Vincent P Barabba

(Detach along broken line)

DEFINITIONS

Part I – SWORN POLICE OFFICERS

SPECIAL POLICE FORCE – A group of law enforcement officers other than the regular police which services a special area or jurisdiction, e.g., campus police, park police, transit police, harbor police, airport police. Though a special police force usually cooperates fully with the regular local police force, it is administratively independent.

Part II – EMPLOYMENT AND PAYROLL

A. EMPLOYEES – All persons in your special police force unit (officers and employees) paid for personal services performed, including all officials, salary workers, and other persons in paid leave status in your unit. **Exclude** unpaid officials, persons on unpaid leave, pensioners, contractors and their employees; and persons paid entirely by another government for services performed for your unit.

FULL-TIME EMPLOYEES (Part II, column a) – Persons employed during the one pay period which included October 15, 1975, on a full-time basis. Include all full-time temporary or seasonal workers employed during this pay period.

PART-TIME EMPLOYEES (Part II, column c) – Persons employed during the one pay period which included October 15, 1975, on a part-time basis.

PAYROLL (Part II, columns b and d) – Gross payroll before deductions including salaries, wages, fees, or commissions earned during the one pay period which included October 15, 1975, by employees as defined above. If some employees are paid on a basis different from the predominant pay period, please include amounts for them on an adjusted basis.

B. Report the pay period interval for which all or most of the full-time (or part-time) employees are paid.

Part III – EXPENDITURE

CURRENT OPERATION (Part III, column a) – Annual salaries and payroll of your unit's officers and employees and the purchase of supplies, materials, and contractual services with individuals and firms in the private sector. **Exclude** all capital outlay (see below), debt retirement, securities investment, loan extension, within-government transactions and employer contributions to employee benefits (see below).

CAPITAL OUTLAY (Part III, column b) – Direct expenditure for contract or force account construction of buildings and other improvements, and for the purchase of equipment, land, and existing structures.

INTERGOVERNMENTAL EXPENDITURE – All money paid to other governments as fiscal aid, or payment for services rendered, or for contracts or compacts with another government (e.g., purchase of police services). **Exclude** money paid to another government for the purchase of commodities, property, utility services, any taxes imposed and paid as such, and contributions for social insurance.

PAYMENTS TO LOCAL GOVERNMENTS (Part III, column c) – Payments **to** a county, city, town, special district, school district, or any of their departments or agencies.

PAYMENTS TO THE STATE GOVERNMENT (Part III, column d) – Payments **to** the State government or any of its department or agencies.

GOVERNMENT CONTRIBUTIONS FOR EMPLOYEE BENEFITS (Part III, column e) – Any employer contributions, **separable for your unit**, to the Federal Social Security program, State and local retirement systems, commercial or mutual life insurance plans, workmen's compensation funds; and premiums paid by your parent government for health, hospital, disability, and other insurance programs. **Exclude** payments made **directly to individuals** and contributions made by **employees** to any of the above programs.

Part IV – REVENUE DIRECT FROM THE FEDERAL GOVERNMENT

Enter only the revenue received **directly** from the Federal Government. **Do not** enter amounts passed from the Federal Government **through** the State or its departments or agencies to your unit.

This report has been cleared in accordance with FPMR 101-11.11 and assigned interagency report control number 1078-DOC-AN.

Washington, D.C. 20233

Dear Sir:

On behalf of the Law Enforcement Assistance Administration, U.S. Department of Justice, the Bureau of the Census annually collects public expenditure and employment data for civil and criminal justice activities from agencies of the Federal Government and from State and local governments. Your cooperation in completing this year's questionnaire will be appreciated.

The data collected in this voluntary survey are used by the Law Enforcement Assistance Administration in implementing and administering the provisions of the Omnibus Crime Control and Safe Streets Act of 1968 as amended. Federal data are used particularly for intergovernmental comparisons and to meet the needs of criminal justice planners at all levels of government. The data are published annually in a report entitled **Expenditure and Employment Data for the Criminal Justice System.**

It would be most helpful if we could receive your reply within 3 weeks. A pre-addressed envelope is enclosed for your convenience. The information you enter should be only for the bureau, agency, or office capitalized in the address block above. If you have any problems in filling out this questionnaire, please call for assistance on 763-7825 or 763-2843.

Sincerely,

Vincent P Barabba

VINCENT P. BARABBA
Director
Bureau of the Census

▶ Part I – EXPENDITURE ◀

(FOR FISCAL YEAR 1975; JULY 1, 1974 THROUGH JUNE 30, 1975)

• **NOTE** – *If unable to show actual cash disbursement, please show total obligations incurred* ***minus*** *the sum of unpaid accounts payable and undelivered orders.*

1. What was your total **CASH** disbursement for **CURRENT OPERATIONS**; i.e., annual salaries, wages, and expenses of officers and employees; purchase of supplies and materials; and contractual services with other Federal agencies or private organizations? *(Do not include government contributions to employee benefits – see item 5 below for further details.)*	$
2. What was your total **CASH** disbursement for **CAPITAL OUTLAY**; i.e., direct expenditure **FROM YOUR OWN BUDGET** for acquisition of land, construction, renovation and repairs of buildings and facilities, and purchase of equipment?	$
3. What was your total **INTERGOVERNMENTAL CASH** disbursement to all **STATE GOVERNMENTS** for fiscal aid (e.g., grants, including amounts which were "passed through" State governments to local governments) or for services rendered?	$
4. What was your total **INTERGOVERNMENTAL CASH** disbursement to all **LOCAL GOVERNMENTS** for fiscal aid (e.g., grants) or for services rendered, made **DIRECTLY** to local governments and **NOT** "passed through" State governments or their departments or agencies?	$
5. What was your total **CONTRIBUTION FOR EMPLOYEE BENEFITS**; i.e., payments made to the Federal Social Security program, Federal retirement systems, commercial or mutual life insurance plans, or premiums paid for accident and health, hospital and other insurance programs? *(Do not include payments made directly to individuals and contributions made by employees for any of the above programs.)*	$

▶ Part II – EMPLOYMENT AND PAYROLL ◀

(FOR THE ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1975 – NOT ANNUAL DATA)

• **NOTE** – *Please report all employees; executives, managers, operatives, and support personnel. Temporary employees should be reported as full- or part-time on the basis of number of hours worked.*

1. How many **FULL-TIME** (40 hours or more a week) employees did you have on your payroll during the **ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1975?**	Full-time employees
2. What was the total payroll amount for all **FULL-TIME** employees noted in item 1 for the **ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1975?**	$
3. What is the pay period interval which applies to the payroll reported in item 2? 1 ☐ Monthly 2 ☐ Twice a month 3 ☐ Every 2 weeks 4 ☐ Weekly 5 ☐ Other – *Specify* _____	**CENSUS USE ONLY**
4. How many **PART-TIME** (less than 40 hours a week) employees did you have on your payroll during the **ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1975?**	Part-time employees
5. What was the total payroll amount for all **PART-TIME** employees noted in item 4 for the **ONE PAY PERIOD WHICH INCLUDED OCTOBER 15, 1975?**	$
6. What is the pay period interval which applies to the payroll reported in item 5? 1 ☐ Monthly 2 ☐ Twice a month 3 ☐ Every 2 weeks 4 ☐ Weekly 5 ☐ Other – *Specify* _____	**CENSUS USE ONLY**

USER EVALUATION QUESTIONNAIRE

Trends in Expenditure and Employment Data for the Criminal Justice System, 1971–1975

Dear Reader:

We have provided an evaluation form below for whatever opinions you wish to express about this report. Please cut out both pages, staple them together on one corner, and fold so that the Law Enforcement Assistance Administration address appears on the outside. After folding, use tape to seal closed. No postage stamp is necessary.

Thank you for your help.

1. For what purpose did you use this report, **Trends in Expenditure and Employment Data for the Criminal Justice System, 1971–1975?**

2. For that purpose, the report –

☐ Met some of my needs ☐ Met all of my needs ☐ Met none of my needs

3. What particular types of data in the report did you use?

4. If the report did not meet your needs, what changes would increase its usefulness to you?

CUT ALONG THIS LINE

5. What additional types of data, if any, would you like to see collected regarding public expenditure and employment for criminal justice purposes?

6. Are there any data contained in the annual publication **Expenditure and Employment Data for the Criminal Justice System** you would like to see presented in the next volume of this report?

7. Which parts of this report, if any, were difficult to understand or use? How could they be improved?

8. Would a different format have been more useful to you?
If yes, please suggest a more useful organization of the material.

9. Can you point out specific parts of the text or table notes that are not clear or additional terms that need to be defined?

10. In what capacity did you use this report?

- ☐ Researcher
- ☐ Educator
- ☐ Student
- ☐ Criminal justice agency employee
- ☐ Government employee other than criminal justice – *Specify* _____
- ☐ Other – *Specify* _____

CUT ALONG THIS LINE

11. If you used this report as a governmental employee, please indicate the level of government.

- ☐ Federal
- ☐ State
- ☐ County
- ☐ City
- ☐ Other – *Specify* _____

12. If you used this report as a criminal justice agency employee, please indicate the sector in which you work.

- ☐ Law enforcement (police)
- ☐ Legal services and prosecution
- ☐ Public or private defense services
- ☐ Courts or court administration
- ☐ Probation
- ☐ Corrections
- ☐ Parole
- ☐ Criminal justice planning agency
- ☐ Other criminal justice agency – *Specify type* _____

13. If you used this report as a criminal justice employee, please indicate the type of position you hold.
Mark all that apply

- ☐ Agency or institution administrator
- ☐ General program planner/evaluator/analyst
- ☐ Operations or management planner/evaluator/analyst
- ☐ Budget planner/evaluator/analyst
- ☐ Program or project manager
- ☐ Statistician
- ☐ Other – *Specify* _____
